SECOND SET OF INFORMATION REQUESTS TO
KEYSPAN ENERGY DELIVERY NEW ENGLAND

D.T.E. 05-8

Respondent: Theodore Poe, Jr.

Information Request DTE 2-1

- Q. Please refer to section 1.5 of the contract FLS160, what is the current maximum LNG storage capacity of the 13 facilities listed? Please discuss whether there are any plans for expansion of any of these facilities.
- A. The current maximum LNG storage capacity of the facilities listed in the contract FLS160 are listed in the table below:

LNG Facility	Maximum Storage Capacity MMBtu
Commercial Point (Dorchester), MA	1,202,094
Haverhill, MA	422,625
Lynn, MA	1,059,803
Salem, MA	1,057,999
South Yarmouth, MA	157,342
Tewksbury, MA	1,066,790
Wareham, MA	8,831
Westford, MA	4,772
Manchester, NH	4,381
Concord, NH	4,381
Tilton, NH	4,381
KeySpan LNG	1,159,664

Currently, there is no plan to expand these facilities. Please note that the contract refers to thirteen facilities. In fact, there are only twelve. The facility located in the Essex Gas service territory in Haverhill, MA was inadvertently listed twice. Once as Haverhill and once as Essex.
